

## 3D fans in six great patterns

### unusual

Elegant round fans with three-dimensional graphic patterns, available in black or white. A real eye-catcher that fits in almost any handbag.

### new stylish recycled

### sustainable

Very good ecobalance. Made from 100% recycled material, durable, energy-efficiently produced. Awarded the “ethical style 2023 by ambiente“.

## long-lasting

Waterproof, unbreakable, durable and resilient. Oil, dirt or heat make little difference to those fans.

## light as a feather

Despite weighing only 23 grams, our 3D fans are amazingly robust and make a lot of "thump" when fanning.

## Six patterns, two color variants

We offer our 3D fans both as an assortment mixed set or in individual colors and patterns.

The set contains 30 white and 30 black fans sorted by pattern.

Fans can be ordered in white from a minimum quantity of 100 pieces per pattern. Depending on the market situation, larger minimum quantities will apply to black fans.

Please do not hesitate to contact us with your needs.
